American Heart Association's Second Century Awards

As the American Heart Association approaches its 100-year anniversary, the importance of bringing novel approaches to address critical gaps in the health and well-being of all cannot be overstated. In recognition of this pending anniversary and the need to foster solutions in these areas, the AHA's Board of Directors allocated additional one-time research funding to support innovative research initiatives to address these gaps. SBIR Fast Track Innovation Pitch/Showcase

Submit your innovation by February 24th. Get on the fast track to success with TechConnect World. Join the world's largest multi-sector commercialization program for emerging deep technologies. Showcase, pitch and connect your SBIR funded technologies for commercialization opportunities with leading corporate, investment and federal prospectors. [More details](#)

National Medal of Science - Call for Nominations

Established in 1959 by the U.S. Congress, the National Medal of Science is the highest recognition the nation can bestow on scientists and engineers. The presidential award is given to individuals deserving of special recognition by reason of their outstanding contributions to knowledge in the physical, biological, mathematical, engineering, or social and behavioral sciences, in service to the Nation. These broad areas include such disciplines as astronomy, chemistry, computer and information science and engineering, geoscience, materials research, and research on STEM education. [More details](#)
